Tesla declined in share values against slightly tax credits.

Model 3 deliveries due to the loss of federal

With 56,065 Model 3s delivered, less than the projected 63,150, Tesla was at 300.51, down 3.19% as of January 3, 2019. Aside from delivery issues, U.S. demand is down after the \$7500 federal tax credit was eliminated.
